Visit Your River!

Sit near your river and be quiet for a few minutes. **What do you hear?** *Try to make the same sounds with your voice.*

Can you identify **5 plants and 5 animals** that live in this area? What are their local names? *Draw a picture of them here!*

Ask an elder to tell you a story about your river: a legend, a place name, or even a memory that they have of the river. *What did you learn?*
