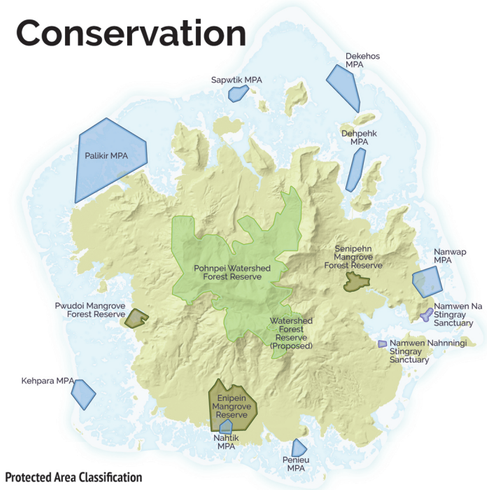
POHNPEI

Landcover

Landcover Classification

- Upland Forest
- Swamp Forest
- Palm forest
- Agroforest
- Grassland / Savanna
- Cropland
- Mangroves
- Marsh
- Barren
- Secondary vegetation
- Urban land
- Urban Cultivated

Conservation



Protected Area Classification

- Mangrove Forest Reserve
- Marine Protected Area (MPA)
- Stingray Sanctuary
- Watershed Forest Reserve

Note:
This map was created by Island Research & Education Initiative (iREI) as part of Geo-literacy Education in Micronesia (GEM) project in partnership with PREL and with funding from the National Science Foundation (NSF). The GIS data layers are from the Digital Atlas of Micronesia (islandatlas.org) and were originally created by different entities and individuals credited therein. Data layers remain copyright by the individual owners. Map design is by iREI and Firewood Maps. The spelling of place names is according to Fanhoizer T. and Rufino M. (2003) Place Names of Pohnpei Island. The kousapw list is from the same source. Kolonia town is a separate municipality of Pohnpei but has traditionally been part of Nett wehi as its Mesenieng kousapw. GEM teams in Pohnpei provided important feedback regarding mountains and rivers to include by name. This material is based upon work supported by the National Science Foundation under Cooperative Agreement No. DRL-1612848 and does not necessarily reflect the views of the National Science Foundation. Municipal boundaries shown are approximate and not definitive. This map should not be used for navigation purposes.
